*Allowable Subject Matter*

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach or fairly suggest with respect to claim 1, an assembling method comprising the steps of finding the insertion position by simultaneously performing the reciprocating motions of the workpiece relative to the object in the plurality of search directions while pressing the workpiece against the object in a pressing direction using the robot such that while the workpiece is moved by the set search range in the reciprocating motion of a first period in one search direction, the workpiece is moved by an amount not greater than the set allowable range in the reciprocating motion in another search direction of a second period next shortest to the first period; and with respect to claim 6, an assembling system comprising search motion defining means for defining a composite search motion of simultaneous reciprocating motions of the workpiece relatively to the object at different periods in a plurality of search directions to find the insertion position in combination with the other elements and features of the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
